Three Laws of Politics

from newly discovered blog Isegoria, Robert Conquest's Three Laws of Politics

> *Robert Conquest's Three Laws of Politics:*
>
> 1. *Everyone is conservative about what he knows best.*
> 2. *Any organization not explicitly right-wing sooner or later becomes left-wing.*
> 3. *The simplest way to explain the behavior of any bureaucratic organization is to assume that it is controlled by a cabal of its enemies.*
>
> *John Moore thinks the third law is almost right; it should read "assume that it is controlled by a cabal of the enemies of the stated purpose of that bureaucracy."*
